

APRIL 4th, 2022

7:30 PM

Victoria Kastner shares
stories from her new
biography
of Julia Morgan:
In-Depth and In-Person!

The Hillside Club is looking forward to our first IN-PERSON Fireside presentation in many months, welcoming author and historian Victoria Kastner back to the Club, with a presentation customized just for us!

Julia Morgan: A Very Personal View

Victoria Kastner will reveal the inspiring story of Julia Morgan's private life, as gleaned from the letters Julia exchanged with her family and friends, as well as from the observations she wrote in her private diaries. In this presentation, customized for the Hillside Club, Kastner will provide an especially in-depth and intimate view of this famous architect.

Ms. Kastner will be calling on the materials she researched for her just-released book: *Julia Morgan: An Intimate Biography of the Trailblazing Architect* (Chronicle Books, 2022), which provides the first in-depth look at Morgan's fascinating private life as well as her remarkable professional career. It is filled with never-before-told anecdotes and gorgeous photography by Alexander Vertikoff. Copies of this volume will be available for purchase that evening directly from Builders Booksources, and Ms. Kastner will be available to sign any copies purchased at the Club.

Tea and cookies will be available to enjoy after the Q & A session, which is likely to be lively!

CoVID protocols will apply: attendees will be asked to show proof of vaccination+booster, if eligible.

Masks must be worn when not eating or drinking.
